

WHY KEEP POURING PROFITS DOWN THE DRAIN?

Stylists and salon owners rely on outdated systems to manage color formulas, schedules, workflow, inventory, and coaching. The outdated systems are wasting color, affecting customer satisfaction, and costing money. Take control of your color business - Get Vish.

Reduce haircolor waste by **80%**

Mix **precise** color everytime

Accurately record and store color formulas

Manage your product inventory with **ease**

View inventory and sales totals in **real time**

Always charge for **100%** of services rendered

“ We've been able to adjust our inventory based on actual usage. Less waste results in lower spending on backbar. We have cut our professional COGS sold in half. ”
- Andrea Swanson, Taylor Stevens

The Vish color management software system is comprised of a Bluetooth enabled scale connected to the Vish color app on a tablet, cloud based web app, and front desk app. This robust system offers unique capabilities to help owners and managers manage their color business and maximize profits
